EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Response to Amendment

1. Applicant's response, filed on March 16, 2006, has been fully considered and entered.

Examiner's amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph A. Pugh on May 25, 2006.

The application has been amended as follows:

Please cancel the non-elected claims 11-20.

Reasons for Allowance

3. Claims 1-10 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or reasonably suggest all the limitations recited in independent claim 1. Specifically, the prior art of record fails to disclose an

Art Unit: 2874

optoelectronic device comprising the signal and ground conductors having a direction of signal propagation associated therewith, wherein related transition of the signal and ground conductors between the submount and the optical substrate are separated along the direction by a predetermined distance, and wherein the predetermined distance is based on a shortest wavelength (WL_{min}) that propagates along the signal and ground conductors in combination with the other limitations of claim 1.

Claims 2-10 depend from claim 1.

The examiner agrees with applicant's arguments on pages 7 and 8 in the remarks and fully concurs that Kochi et al. do not disclose or suggest an optoelectronic device with all limitations as defined above.

Claims 1-10 are therefore allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
